Rapid Growth of Startups Participating in SusHi Tech

Oishii Farm Corporation

*Session speaker of 2024・2025・2026

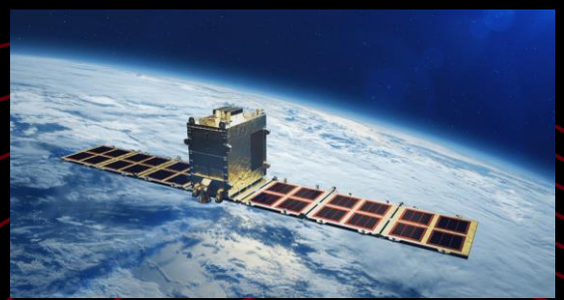

- Leveraging Japanese technologies, the company has built a next-generation agricultural system utilizing AI and automation, aiming to produce high-quality strawberries at low cost, and has grown into a leading company in this field.
- Participation led to **recruitment of top talent and concrete business discussions**; media coverage resulted in global exposure and **strong international response.**
- In May 2026, announced fundraising of **JPY 24 billion** to expand U.S. farmland operations and strengthen R&D functions in Tokyo.

Kyoto Fusioneering Ltd.

*City-Tech Challenge 2023 Grand Prize winner; exhibited in 2026

- A fusion (nuclear fusion) energy startup originating from Kyoto University, with world-class engineering expertise in areas such as plant equipment, plasma diagnostics, and fuel cycles, delivering technologies from R&D to full-scale plant implementation.
- Engaged with approximately **50 investors and around 30 startups** during the event; attracted participation from **globally top-level players**.
- Participation in City-Tech Tokyo accelerated its momentum, contributing to cumulative fundraising of approximately **JPY 16 billion** to date.

Synspective Inc.

※City-Tech Challenge（2023） Session speaker; exhibited in 2024・2026

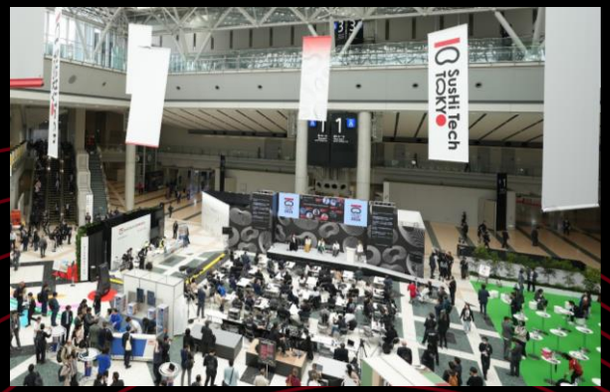

- Provides satellite data solutions, including Earth observation and land deformation analysis, using a constellation of small SAR satellites.
- After exhibiting in 2024, raised **JPY 7 billion** for the development and operation of small SAR satellites.
- Listed on **the Tokyo Stock Exchange Growth Market** in December 2024(Post-listing valuation: **JPY 44.9 billion** → Approx. **JPY 200 billion** market value as of June 2026)

3-day participants reached 60,779, marking a record high

- Business Day: +7,000 participants (+24%), Public Day: +10,000 participants (+69%)
- In addition to expanded business opportunities, opportunities for children and young people to experience cutting-edge technologies and future cities in an engaging way have also significantly increased.

Category	2026	2025	Change
Business Day	**35,683**	28,854	6,829 (+23.7%)

Speaker List

Global leaders across diverse fields discuss the future of cities (158 sessions)

Special Keynote— Expectations for Startups Driving Transformation and Growth — (Sanae Takaichi /Yuriko Koike)

Toward the Leap of Japanese Startups onto the Global Stage
(Tomoko Namba/Guido Appenzeller)

Governments at the Frontline in the Age of Agentic AI
(Natalia Denikeieva, Liisa-Ly Pakosta etc.)

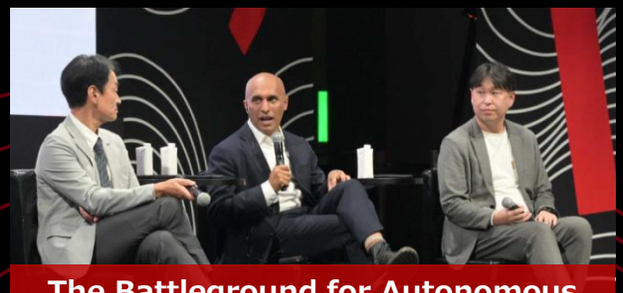

AI x Education
(Teruo Fujii/Bolor-Erdene Battsengel)

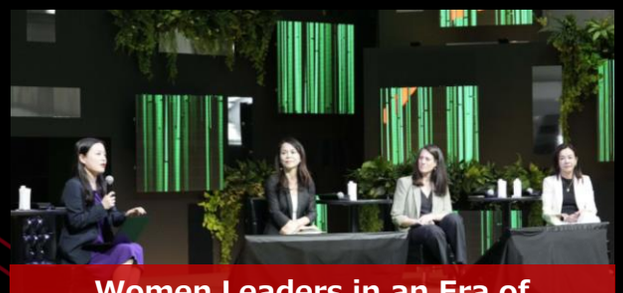

Africa Innovation Frontier
(Catherine Russell etc.)

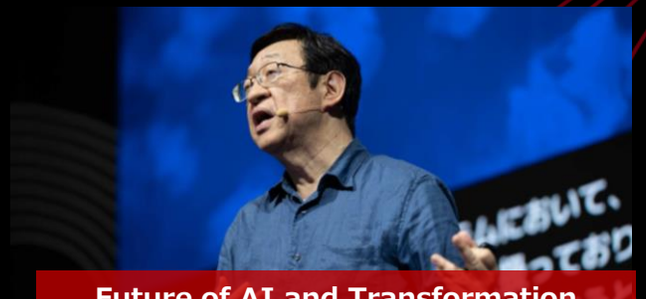

"Where Are Global Climate Tech Trends Heading?"
(Ashley Grosh etc.)

The Battleground for Autonomous Driving Shifts to Software
(Qasar Younis etc.)

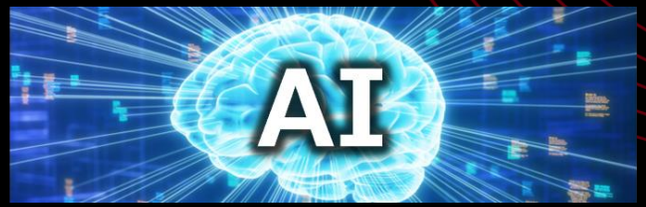

Women Leaders in an Era of Transformation
(Alexandra Dublanche etc.)

Future of AI and Transformation of the Civilization
(Hiroaki Kitano)

Focus on

Targeting fields where innovation drives major transformation in society and daily life

The Next Phase of AI
(NVIDIA Howard Wright etc.)

Who Will Build Trustworthy AI?
(Anthropic Japan Hidetoshi Tojo etc.)

Physical AI x Robotics for Adaptive Living Environments
(NVIDIA G.K. Kazumasa Hirano)

Where Can Japan Create Unique Value in Physical AI?
(AI Robot Association Tetsuya Ogata)

From Research to Impact: The Vision of University Spin Off Startups in Protecting, Creating, and Commercializing Knowledge in the Age of AI
(Prof. Yutaka Matsuo (UTokyo) etc.)

From AI to Society
(NAVER Sooyeon Choi etc.)

Demonstration of Humanoid Robotics
(donut robotics Co., Ltd.) (GMO AI＆Robotics Corporation)

and more...

Sessions by prominent figures and business leaders, along with exhibitions and demos by startups and large corporations, packaged into an integrated program

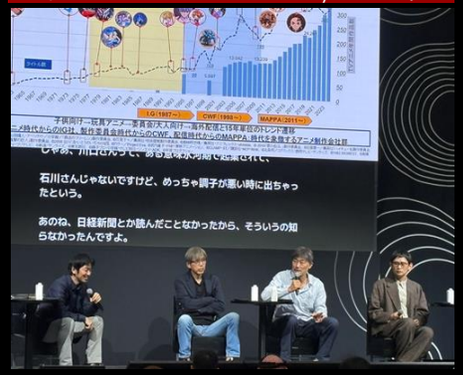

Make the Invisible Thereat Visible
(Trend Micro Eva Chen etc.)

Green Intelligence
(Minister of Environment from Taiwan, Chi-Ming Peng etc.)

What Tokyo Needs to Become the Hollywood of the Anime Industry
(Re entertainment Atsuo Nakayama etc.)

How Technology Is Shaping the Future of Entertainment
(MusicTech Japan Takayuki Suzuki etc.)

Model of Nuclear Fusion Power Plant
(Kyoto Fusioneering Ltd.)

Model of the Small SAR Satellite
(Synspective Inc.)

Anime Production with AI
(Magic Holic Co., Ltd.)

AI Manga Apps
(Orange Inc.)

and more...

and more...

Business Matching

25,140 business meetings generated through various mechanisms to connect the right people

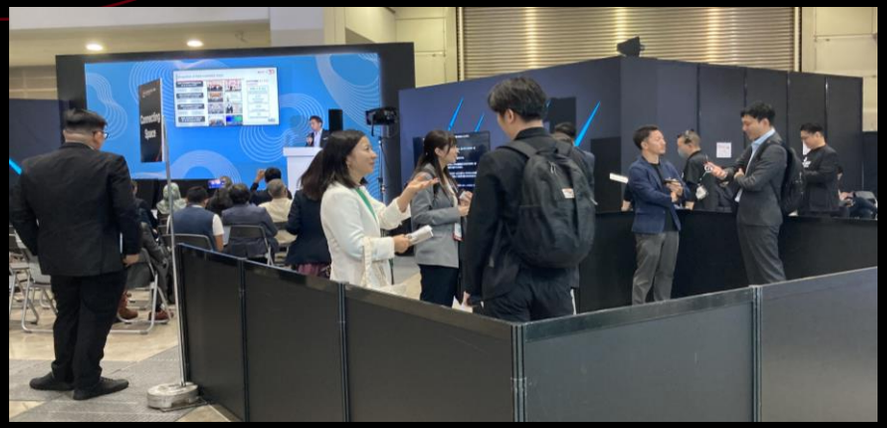

Networking Events

- Curated networking tailored to the needs of corporates and leading VCs
- Secretariat-supported outreach to attract startups

Post-Session Meetups

- Meetups held after sessions between speakers (e.g., global executives, overseas VCs) and attendees

Focus On Themed Meetups

- (ANetworking among startups and ecosystem supporters with Focus On themes I, Robotics, Resilience, Entertainment)

Reverse Pitch by Global Cities

- Cities present urban challenges and match with startups
  - Moreton Bay: Disaster prediction and preparedness / Infrastructure operation and maintenance management
  - Rome: Mobility transformation for a sustainable, safe, and accessible city/ Waste Management
- On-site PoC project by Tokyo startups planned from fall

Expanded participation from corporates and global VCs, with dedicated areas for sessions, pitches, and meetups

Open Innovation Area

- An area showcasing open innovation between large companies and startups, featuring activities by TIB CATAPULT clusters and others.

Investor Area

- Participation of leading international VCs
- Open meetups with participants held after sessions

Meeting Spaces & App

- Significant expansion of on-site meeting spaces and booths
- An app that recommends relevant connections using AI and enables meeting scheduling

Global Startup Ecosystems Converge

City Partners: 24 countries/regions/cities

*In addition to the above 21 countries/regions/cities exhibiting pavilions, three more (Brussels [Belgium], Ireland, and Colombia) participated with booths

*Over 50 international delegations visited from around the world, with partner events held across Tokyo (bottom-right images show highlights)

580 international VCs and investors attended (506 in 2025)

Holding sessions featuring prominent domestic and international VCs, as well as open meetups that offer opportunities to network with speakers

G-NETS Leaders Summit

Global City Network for Sustainability Leaders Summit

3rd Global City Network for Sustainability (G-NETS) Leaders Summit

The G-NETS Leaders Summit (April 27–29, 2026) brought together leaders from 55 cities across five continents, who engaged in discussions and shared insights and best practices under the theme: “A New Urban Future built on Climate and Disaster Resilience”

The outcomes of the summit were compiled into a joint statement (communiqué), and as a new initiative, each city announced concrete actions and targets to strengthen resilience, to be shared with the world.

The next meeting is scheduled as part of SusHi Tech Tokyo 2027 (May 19–21, 2027), hosting the 4th G-NETS Senior Officials Meeting

Participating Cities (55)

G-NETS website

G-NETS Programs

Global City Network for Sustainability Leaders Summit

DAY 1 （4/27） : SusHi Tech site visit, Reverse pitch, Sessions

- ✓ Take the stage at the Opening session
- ✓ Moreton Bay and Rome presented their urban challenges to Tokyo-based startups
- ✓ Representatives from 28 cities delivered presentations and exchanged views on themes such as disaster preparedness, culture and sports, and startup collaboration

DAY 2 （4/28） : Sessions, Announcement of the Communiqué

- ✓ Representatives from 21 cities delivered presentations and exchanged views on themes such as disaster preparedness, decarbonization, and AI/digital technologies
- ✓ The Communiqué was compiled and jointly issued to the global community, along with the action statement by each city

DAY 3 （4/29） : Site visit

- ✓ Representatives from 26 cities participated in site visits, including the Edo-Tokyo Museum and resilience-related facilities (e.g. Koto River Improvement Office, Tokyo Port Construction Office, and the Chiyoda Sewer Trunk Line)

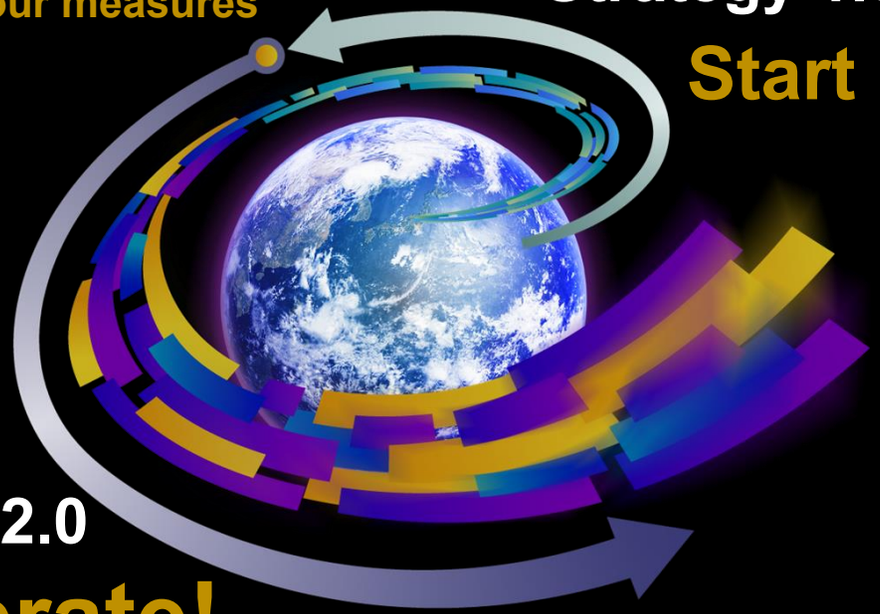

Global Innovation Strategy 2.0 STARTUP & SCALEUP

- The situation is changing rapidly, with global political and economic movements, rapid advancements in AI, etc
- The competition and co-creation of ecosystems in cities around the world are intensifying

⇒Accelerate strategies based on two platforms: TIB and SusHi Tech

Initiate the second stage of our measures

- Global x Scale-up
- Number of Startups
- Public-private collaboration
- Platform

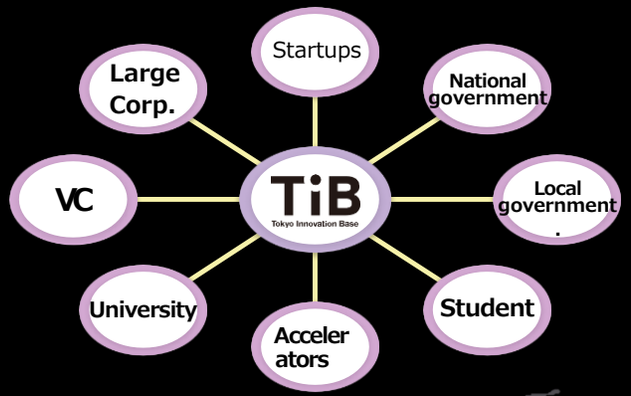

To achieve the Innovation Vision: Positioning “scale-ups”—companies that contribute to society and the economy and achieve significant growth—along with “platforms” such as TIB and SusHi Tech, as new pillars of initiatives

Tokyo Innovation Base（TIB）

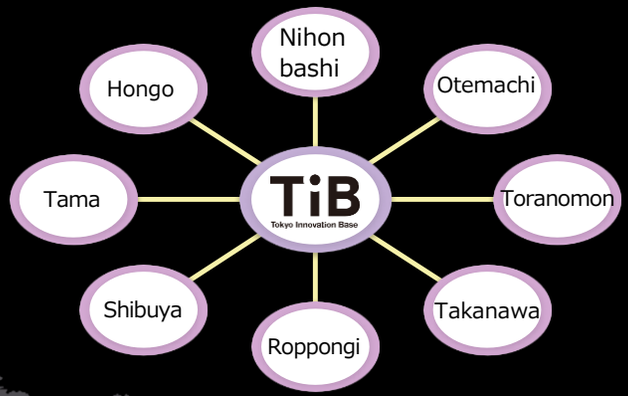

A major startup support platform aiming to become a global “node” of innovation

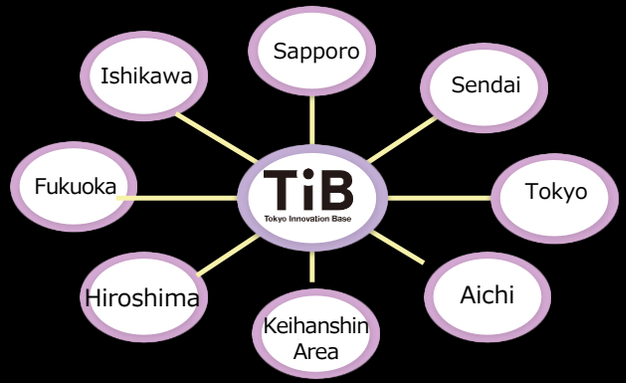

Connecting Diverse Players
