- Summary of Governor Koike's Remarks
 - (1) About Tokyo Innovation Base
 - ① Achievements of TIB
 - ② Further Evolution
 - (2) About SusHi Tech Tokyo 2025
 - ① An Event Where Various Players Gather
 - ② The first announcement of Speakers

(1) About Tokyo Innovation Base

There was an announcement regarding the achievements of TIB over the past year since its pre-opening, as well as plans for further functional enhancements.

① Achievements of TIB

- Tokyo Innovation Base (TIB) is a "NODE," a global hub. It serves as a place where diverse players gather and interact, creating various connections.
- To date, approximately 480 events have been held, and over 1,400 startups and supporters have participated in various support programs conducted at TIB.
- The number of registered members using TIB is about 23,000, and the number of visitors over the past year recently surpassed 100,000.

*All figures are as of November 22nd.

- Through the various activities of ecosystem players, Japan and Tokyo's startup ecosystem is steadily gaining strength, and the number of Japanese startups active globally has increased over the past year.
- The support network for startups is expanding to large corporations and universities, and initiatives aimed at creating open innovation are also becoming more active.

② Further Evolution

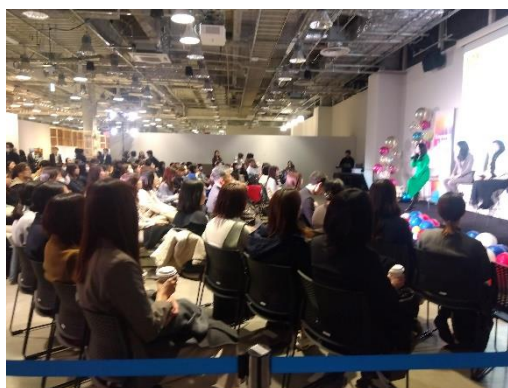

- To further accelerate the activation of this startup ecosystem, TIB will evolve.
- We will expand the functions of the first floor to create a space for activities and interactions for people challenging various fields.
- Today, as the first step, we held an event on the first floor to support diversity and inclusion.
- Tokyo will become a city that supports challengers in all fields. To realize this vision outlined in our startup strategy, TIB will grow into an even larger platform.

(2) About SusHi Tech Tokyo 2025

There was a new announcement regarding SusHi Tech Tokyo 2025, which is scheduled to be held from May 8th to 10th next year.

① An Event Where Various Players Gather

- Guided by the philosophy of realizing a sustainable city through high technology, the Tokyo Metropolitan Government is promoting its efforts to solve urban issues and the diverse appealing points of Tokyo both domestically and internationally through SusHi Tech Tokyo = Sustainable High City Tech Tokyo.
- In May of next year, SusHi Tech Tokyo 2025 will be held, bringing together a diverse range of players, including startups, investors, large companies, cities, and students from around the world. We are now looking for companies, cities, etc. that support the vision of SusHi Tech Tokyo and will work together with us to make event a success as partners.
- We will be accepting applications for corporate partners, city partners, and ambassadors until the end of the year.
- We look forward to the participation of everyone who can help us make our Asia's largest startup conference a success.
- Additionally, we will be developing special programs to attract venture capitalists from around the world, further expanding opportunities for business negotiations and investments.
